Scenario:
[Existing experience through a product or service]

	Entice	Enter	Engage	Exit	Extend
	How does someone become aware of this service?	What do people experience as they begin the process?	In the core moments in the process, what happens?	What do people typically experience as the process finishes?	What happens after the experience is over?
Experience steps What does the person (or people) at the center of this scenario typically experience in each step?	Finds project through college/demo Sees dashboard preview Interested in heritage data insights	Open dashboard View main homepage	Analyze top 10 regions Check danger sites Explore year forecasting Compare categories Export insights	Download report Take screenshot	Share with classmates Use in presentation Suggest improvements
Interactions What interactions do they have at each step along the way? ▪ **People:** Who do they see or talk to? ▪ **Places:** Where are they? ▪ **Things:** What digital touchpoints or physical objects do they use?	Instructor Project presentation Web Demo Link	Dashboard interface Filters (Region, Category, Danger Status)	Charts (Map, Bar, Line, Pie) Hover tooltips Export options Drill-down filtering Toggle between maps and charts	Export to PDF/PNG Save filtered results	Presentation slides Feedback discussion Future enhancement brainstorming
Goals & motivations At each step, what is a person's primary goal or motivation? ("Help me..." or "Help me avoid...")	Help me explore heritage data easily Help me understand global heritage trends Help me find reliable heritage statistics	Filters (Region, Category, Danger Status) Help me see country-level data	Hrlp me identify trends Help me compare regions Help me find endangered sites Help me detect patterns over time Help me which regions are at risk	Help me present findings Help me share insgihts	Help me improve analysis Help me apply to real world data Help me conduct deep research
Positive moments What steps does a typical person find enjoyable, productive, fun, motivating, delightful, or exciting?	Clean UI design Clean UI design Help me find reliable heritage statistic	Interactive filters Map cisualization loads properly	Forecasting graph Treemap for danger sites Interactive map coloring Clear regional comparison Smooth interctions when filters update instantly	Clean export Clear charts	Good academic feedback Visual appeal appreciated Sees future research potential
Negative moments What steps does a typical person find frustrating, confusing, angering, costly, or time-consuming?	Not sure what insights are available Add project description popup Add project description popup	Too many filters at once Confusing Terminology	Too many vicuals on one screen Hard to interpret large numbers Data misinterpretation risks Limited explanation for rcomplex metrics Data misinterpretation risks	Manual export process No auto-generated summary	Linited real time data Static dataset No adavanced analytics
Areas of opportunity How might we make each step better? What ideas do we have? What have others suggested?	Add intro screen Add project description popup Add sample insights preview	Add filter tooltips Add reset button	Add dashboard summary cards Add KPI indicators Improve color legend clarity Add insights explanation panel Add comparison mode	One click report export Automated summary generation	Add live UNESCO API Add predictive AI model Add user comparison mode
