

Project Design Phase-II

Data Flow Diagram & User Stories

Date	20 Jan 2026
Team ID	LTVIP2026TMIDS24102
Project Name	Heritage Treasures: An In-Depth Analysis of UNESCO World Heritage Sites in Tableau
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

User Stories

User Type	Functional Requirement (Epic)	User Story No	User Story / Task	Acceptance Criteria	Priority	Release
Student / Researcher (Mobile User)	Global Overview	USN-1	As a user, I can view a world map showing heritage sites by country.	Map correctly displays country-wise heritage site distribution.	High	Sprint-1
Student / Researcher (Mobile User)	Region Filter	USN-2	As a user, I can filter heritage sites by region.	Dashboard updates dynamically when region filter is applied.	High	Sprint-1
Student / Researcher (Mobile User)	Category Analysis	USN-3	As a user, I can compare Cultural, Natural, and Mixed heritage sites.	Bar chart shows accurate category-wise site counts.	High	Sprint-1
Student / Researcher (Mobile User)	Danger Sites Analysis	USN-4	As a user, I can view sites that are marked as "In Danger".	Only endangered sites are displayed when filter is applied.	High	Sprint-2
Student / Researcher (Mobile User)	Area Analysis	USN-5	As a user, I can analyze total area covered by heritage sites.	Treemap/Chart accurately displays area distribution.	Medium	Sprint-2
Student / Researcher (Mobile User)	Yearly Trend Analysis	USN-6	As a user, I can view yearly growth of heritage site inscriptions.	Line chart displays correct year-wise trend.	High	Sprint-2
Student / Researcher (Mobile User)	Forecasting	USN-7	As a user, I can view future prediction of heritage site growth.	Forecast model shows predicted values with confidence interval.	Medium	Sprint-2
Customer (Web User)	Region Comparison	USN-8	As a user, I can compare site count across regions.	Pie/Bar chart correctly displays region-wise site count.	High	Sprint-1
Customer (Web User)	Top 10 Analysis	USN-9	As a user, I can view Top 10 regions by area or site count.	Dashboard displays correctly sorted Top 10 results.	High	Sprint-1
Customer (Web User)	Multi-Filter Interaction	USN-10	As a user, I can apply multiple filters simultaneously (Region, Category, Year).	All visualizations update interactively without errors.	High	Sprint-2
Customer (Web User)	Drill-Down Analysis	USN-11	As a user, I can drill down from region level to country level.	Clicking region shows corresponding country-level details.	Medium	Sprint-2
Customer Care Executive	Data Validation	USN-12	As a support user, I can verify filtered results for accuracy.	Displayed data matches dataset values correctly.	Medium	Sprint-2
Customer Care Executive	Report Assistance	USN-13	As a support user, I can assist users in understanding dashboard insights.	Insights are clearly visible and understandable.	Medium	Sprint-2

Administrator	Data Update	USN-14	As an admin, I can update dataset when new heritage data is available.	Dashboard refreshes correctly after data update.	High	Sprint-2
